

Credit Risk Review — Line Sheet System

Independent review per the 2020 Interagency Guidance on Credit Risk Review Systems: rely on LOB information only after critically evaluating it; every conclusion traces to a source.

How the system works

- Ingest**
Run the engine on source documents: regulatory PDFs, internal policy, credit memos (python -m engine extract-thresholds / extract-cam).
- Stage**
Extracted rows land on Staging_TypeA / Staging_TypeB with the verbatim source span, page/section, and a confidence flag. Nothing is live yet.
- Confirm**
A reviewer marks each staged row Confirmed or Rejected. Low-confidence and Coverage Gap rows are highlighted for resolution.
- Promote**
python -m engine promote copies ONLY Confirmed rows to the Crosswalk (thresholds) and Assertions (credit-memo facts) sheets.
- Review**
Line sheets re-derive each asserted value independently, compare to the in-force threshold for the review date and agency, and record Yes / No / N/A / Obs answers.
- Report**
Database and dashboards roll up exceptions (No only), observations (Obs only), rates (N/A excluded), grades, and concentrations.

Answer convention (identical on every form)

Yes	Clean pass. Note optional.
No	Exception / finding. Drives the exception rollout and aging. Rationale note required.
N/A	Not applicable. Excluded from numerator AND denominator of every rate.
Obs	Pass with a note on record. Note required. Never counted as an exception; surfaces only in the Observations view for thematic patterns.

Color conventions

Blue	Hardcoded inputs you can change
Black	Formulas and calculations
Green	Links pulling from other sheets (Crosswalk, Settings)
Yellow fill	Key assumptions needing attention

Navigation

Settings	As-of date, primary agency, capital inputs
LS_CI	C&I / Commercial line sheet (reference template)
LS_CRE	Commercial Real Estate line sheet
LS_LL	Leveraged Lending line sheet
LS_ABL	Asset-Based Lending line sheet
LS_ARG	ARG / Workout line sheet
LS_COMP	General Compliance line sheet
Database	One row per credit per review
Responses	One row per question per credit
Dash_Portfolio	Portfolio overview & grade migration
Dash_Exceptions	Exceptions (No answers only), severity, aging
Obs_View	Observations only - thematic patterns
Dash_Concentration	Concentration vs capital, live crosswalk status
Dash_Trends	Watch-list / classified trend
Crosswalk	Confirmed thresholds with provenance & dating
Assertions	Confirmed credit-memo facts vs independent values
Staging_TypeA	Extracted thresholds awaiting confirmation
Staging_TypeB	Extracted credit-memo assertions awaiting confirmation

Settings & Bank Inputs

Review controls

Review As-Of Date	06/10/2026	Drives crosswalk Active/Rescinded status and exception aging.
Primary Supervisory Agency	OCC	Agency whose thresholds the dashboards cite. Forms use this plus internal policy.

Grade	Category	Regulatory Definition
1	Pass	Substantially risk-free; strongest financial condition.
2	Pass	Strong financial condition; ample debt-service capacity.
3	Pass	Satisfactory; adequate capacity with identifiable secondary support.
4	Pass	Acceptable with attention; tighter margins or higher leverage.
5	Special Mention	Potential weaknesses deserving close attention; if uncorrected may weaken prospects.
6	Substandard	Well-defined weakness; distinct possibility of loss if not corrected.
7	Doubtful	Collection in full highly questionable and improbable.
8	Loss	Considered uncollectible; charge-off warranted.

Concentration vs. Capital — Live Crosswalk Status

Criteria pull from the confirmed Crosswalk for the bank's primary agency, as of the Review As-Of Date. Supervisory criteria trigger heightened scrutiny - they are not hard caps.

Bank inputs (edit on Settings sheet)

Total Risk-Based Capital (\$000)	\$185,000
Construction, Land & Development Loans (\$000)	\$142,000
Total Non-Owner-Occupied CRE Loans (\$000)	\$612,000
Non-OO CRE Balance 36 Months Ago (\$000)	\$425,000

Supervisory criteria status (2006 Interagency CRE Guidance, as confirmed in Crosswalk)

Measure	Bank Level	Criterion (In Force)	Status
CLD Loans / Total Risk-Based Capital	76.8%	100.0%	Below criterion
Total Non-OO CRE / Total Risk-Based Capital	330.8%	300.0%	Part 1 met — test growth
36-Month CRE Growth	44.0%	50.0%	Below combined criterion

Leveraged-Lending Guidance status by agency (Total Debt / EBITDA criterion, as of Review As-Of Date)

Agency	Threshold	Effective	Rescinded	us As-
OCC	6.0x	03/21/2013	12/16/2025	Rescinded
FDIC	6.0x	03/21/2013	12/16/2025	Rescinded
FRB	6.0x	03/21/2013	—	Active

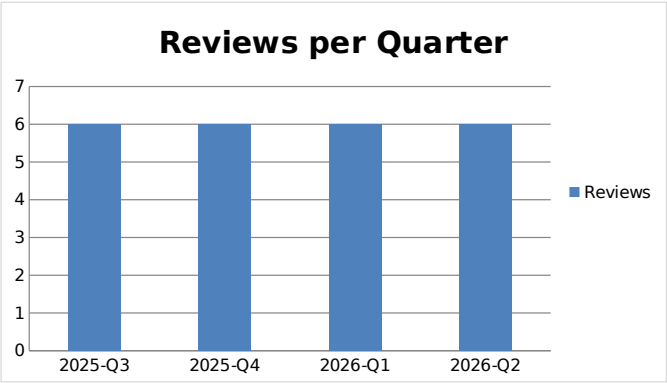

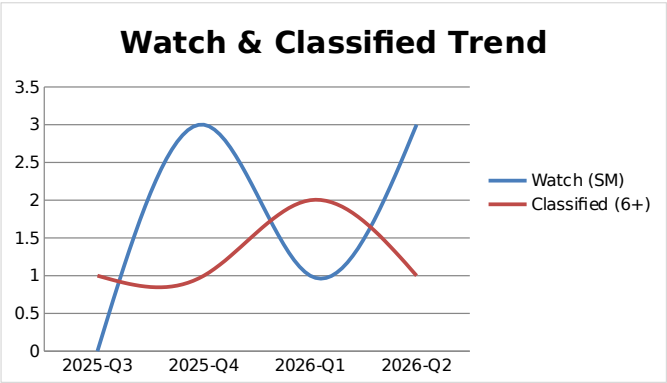

A threshold can be Active for one agency and Rescinded for another on the same date; reviews cite the rule in force at the review as-of date.
