Workpaper Studio: Credit File Review Procedure

Document	Procedure for completing, reviewing and releasing a credit file review in Workpaper Studio
Effective date	[CONFIRM: effective date]
Owner	[CONFIRM: procedure owner]
Applies to	Credit file review, version 1.1
Data	Synthetic. The debt-to-income (DTI) limit and method are fictional demonstrations.

Purpose

This procedure explains how a credit file review is set up, completed, reviewed and released in Workpaper Studio. It is written so that a third party can follow what each person did and why.

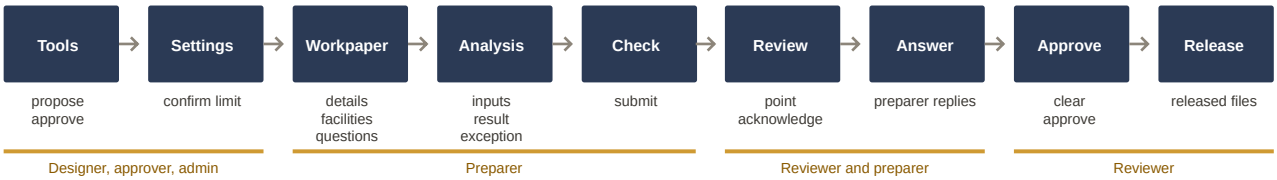

Scope

It covers publishing the tool, confirming the organization's limit, completing a case, recording an exception for a result above the limit, review points, approval and release. Loading cases from the master database is covered in a separate procedure.

Before you start

System	Access needed
Workpaper Studio	A name set up on the Access screen
Tool designer	Propose tools
Tool approver	Approve tools, and not the person who proposed the tool
Admin	Set limits
Preparer	Start cases, Edit case entries, Submit for review
Reviewer	Approve cases and Release cases, and not the preparer of the case

Route

Steps

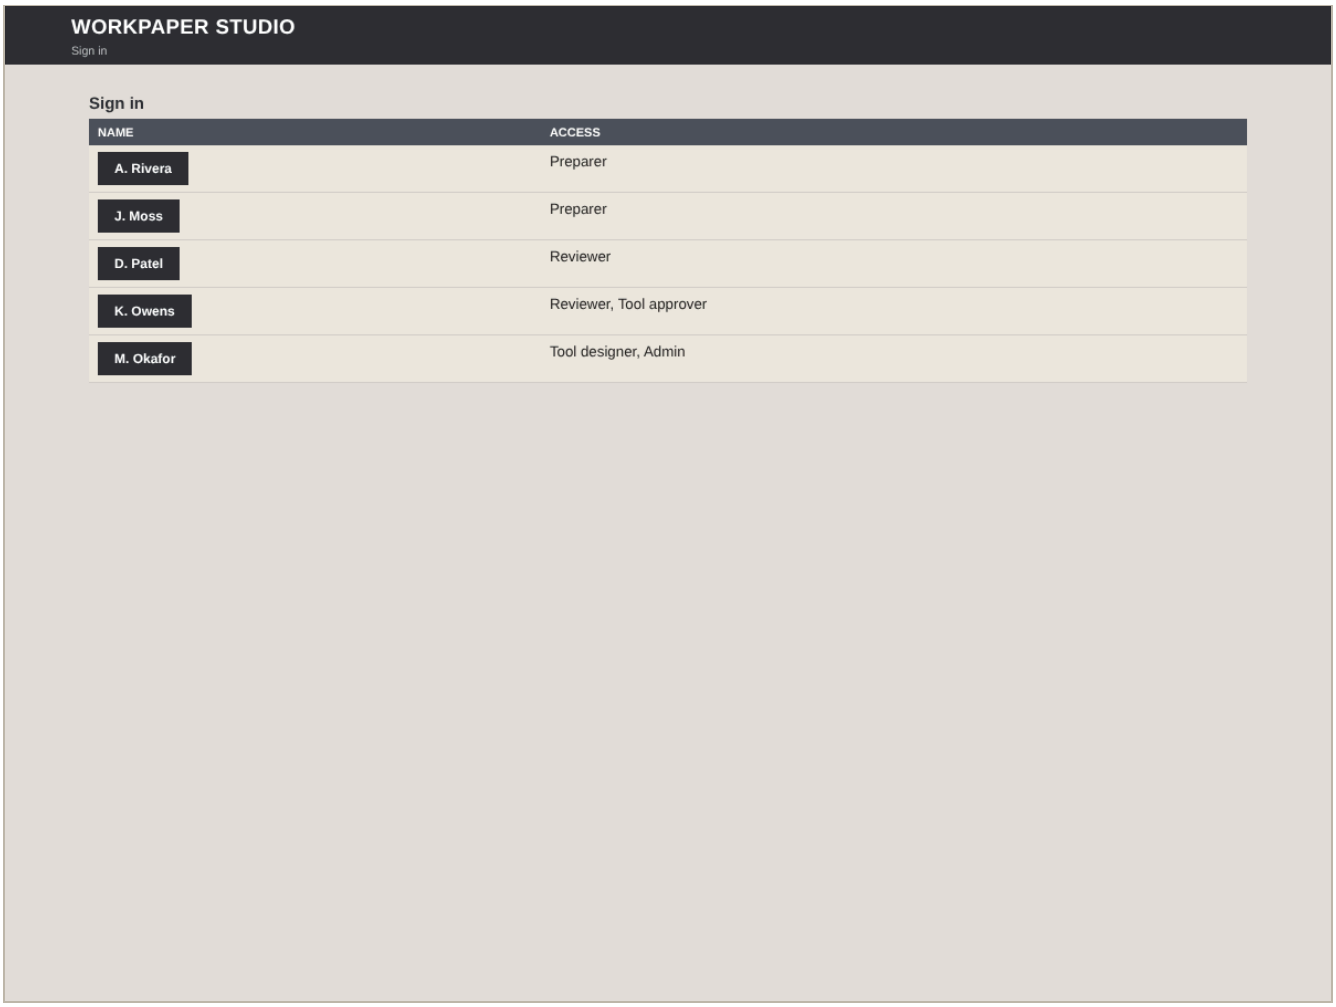

A. Sign in

EVERYONE

- Open Workpaper Studio.
- Select your name.

Expected result. Cases opens. The menu shows only what your access allows.

(i)

B. Propose the tool

TOOL DESIGNER

- Select **Tools**.
- On the Credit file review row, select **Propose for publishing**.

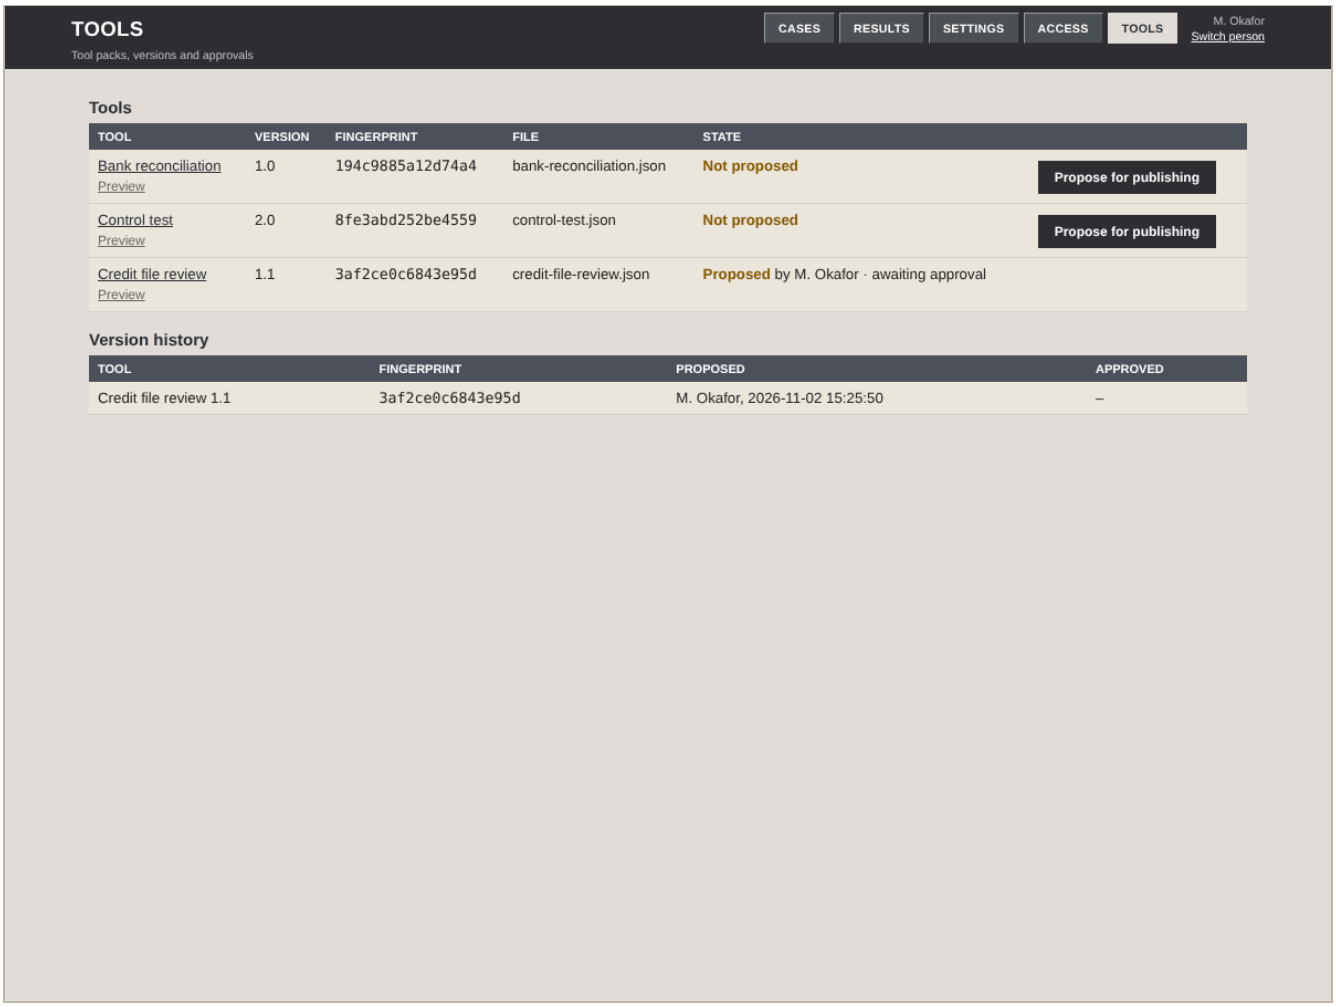

Expected result. Status reads *Proposed by M. Okafor · awaiting approval*.

> **Note:** The person who proposes a tool cannot approve it, so no Approve button appears for them.

(i)

(ii)

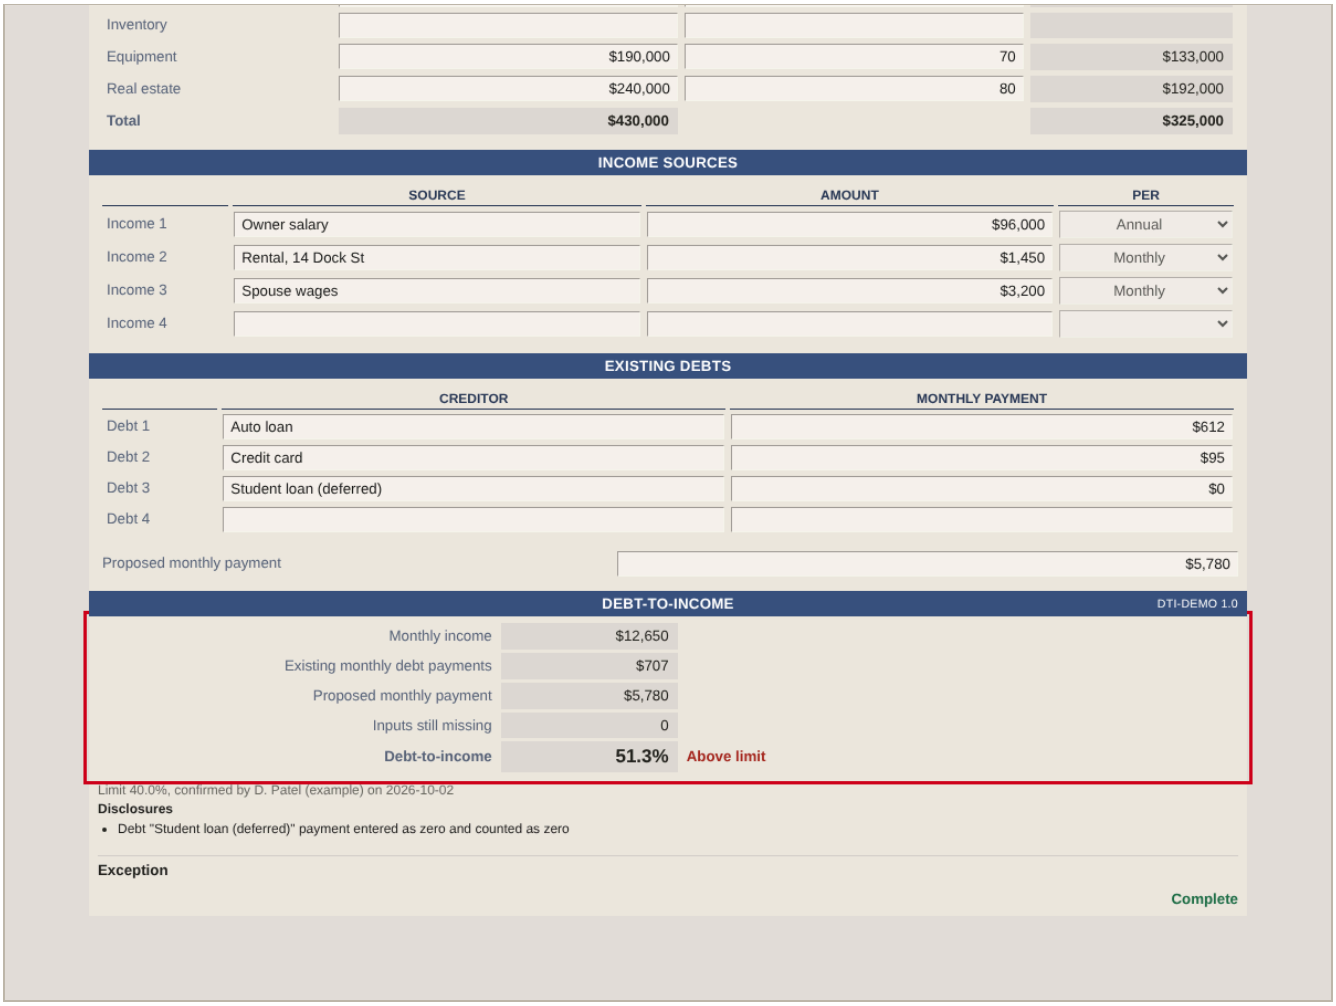

C. Review and approve the tool

TOOL APPROVER

- Select the tool name to review its sections, fields and calculations.
- Select **Preview** to see the tool completed with example data.
- Return to **Tools** and select **Approve**.

Expected result. Status reads *Published*, with who proposed and who approved it. New cases use this version.

(i)

Inventory			
Equipment	$190,000	70	$133,000
Real estate	$240,000	80	$192,000
Total	**$430,000**		**$325,000**

INCOME SOURCES

	SOURCE	AMOUNT	PER
Income 1	Owner salary	$96,000	Annual
Income 2	Rental, 14 Dock St	$1,450	Monthly
Income 3	Spouse wages	$3,200	Monthly
Income 4			

EXISTING DEBTS

	CREDITOR	MONTHLY PAYMENT
Debt 1	Auto loan	$612
Debt 2	Credit card	$95
Debt 3	Student loan (deferred)	$0
Debt 4		

Proposed monthly payment $5,780

DEBT-TO-INCOME DTI-DEMO 1.0

Monthly income	$12,650	
Existing monthly debt payments	$707	
Proposed monthly payment	$5,780	
Inputs still missing	0	
Debt-to-income	**51.3%**	Above limit

Limit 40.0%, confirmed by D. Patel (example) on 2026-10-02

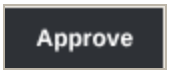

Disclosures

- Debt "Student loan (deferred)" payment entered as zero and counted as zero

Exception

Complete

(ii)

D. Confirm the limit

ADMIN

- Select **Settings**.
- Enter the organization's limit for Highest debt-to-income (40 for this demonstration).
- Select **Confirm**.

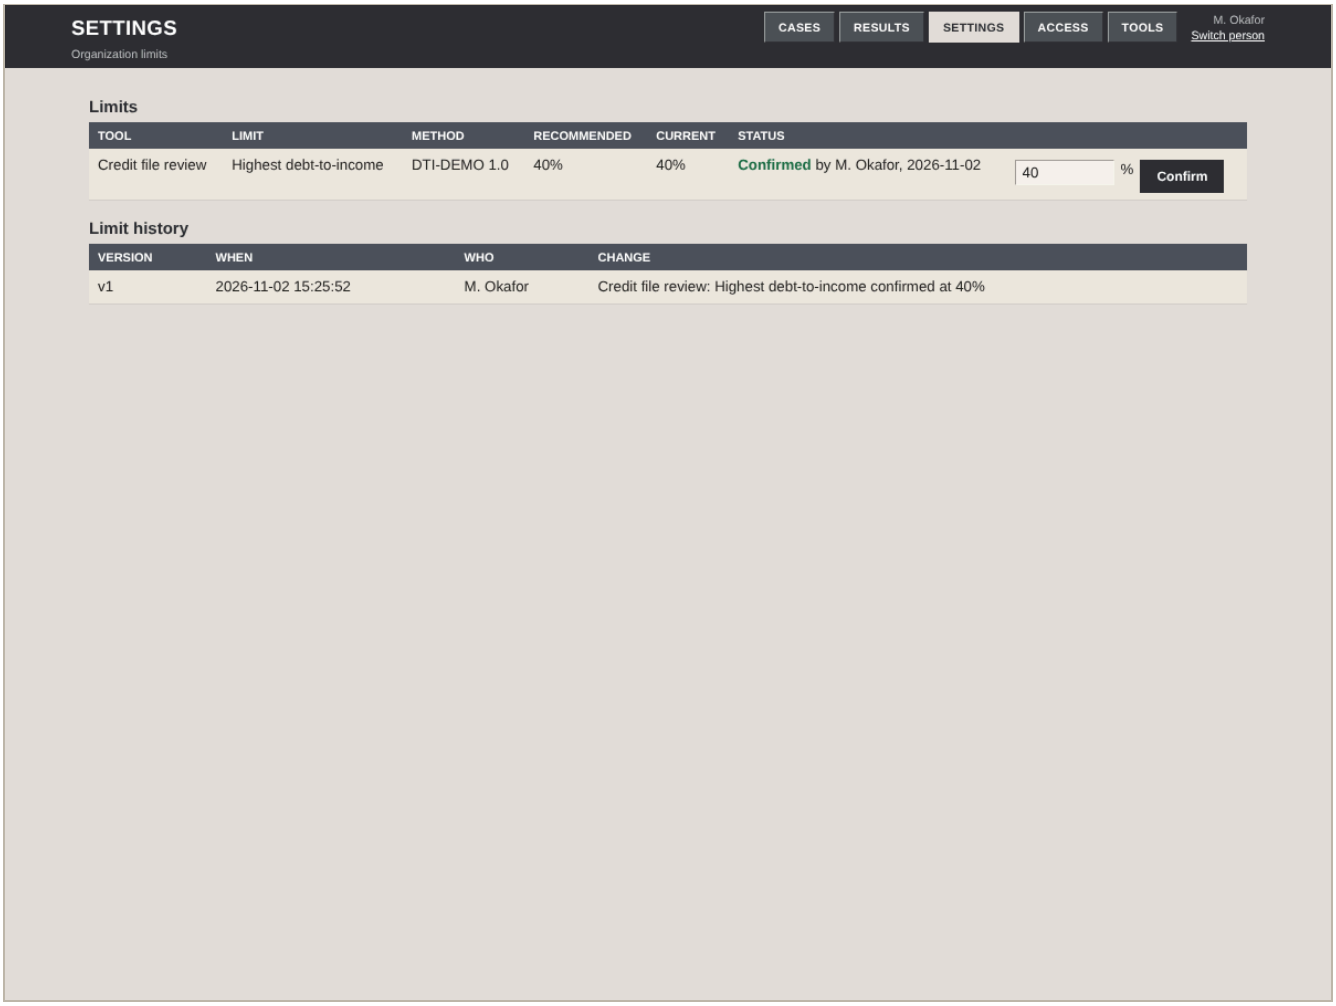

Expected result. Status reads *Confirmed by M. Okafor* with the date, and the change is added to Limit history.

> **Note:** A result is not tested until its limit is confirmed. A case keeps the limits in force when it was started.

(i)

(ii)

E. Start the case

PREPARER

- On **Cases**, under New case, select **Credit file review**.

Expected result. The case opens with every required field highlighted. The status strip shows Ready for review: No and the number of missing items.

(i)

(ii)

F. Complete the details

PREPARER

- Complete Tester details, Reviewer details, Scope and Borrower details.
- Use **N/A** beside a field only where it does not apply, and give the reason.

Expected result. Each panel shows *Complete* when its required fields are filled. Entries save when you leave each field.

> **Note:** The Tester must be the person signed in. A different name stops the case at approval.

(i)

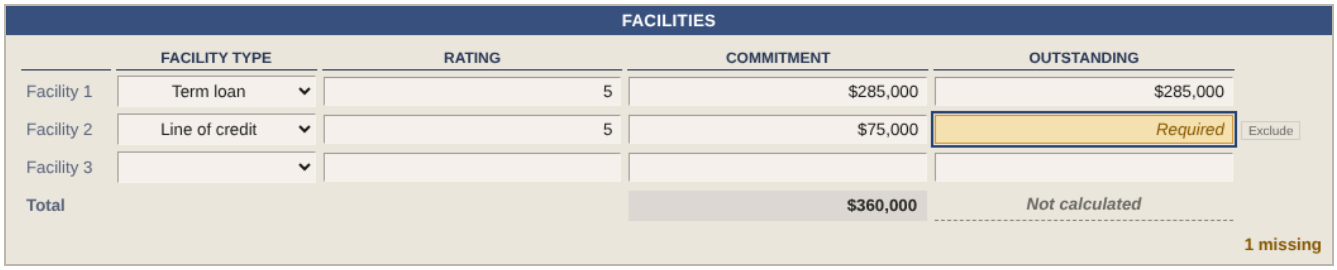

G. Enter the facilities

PREPARER

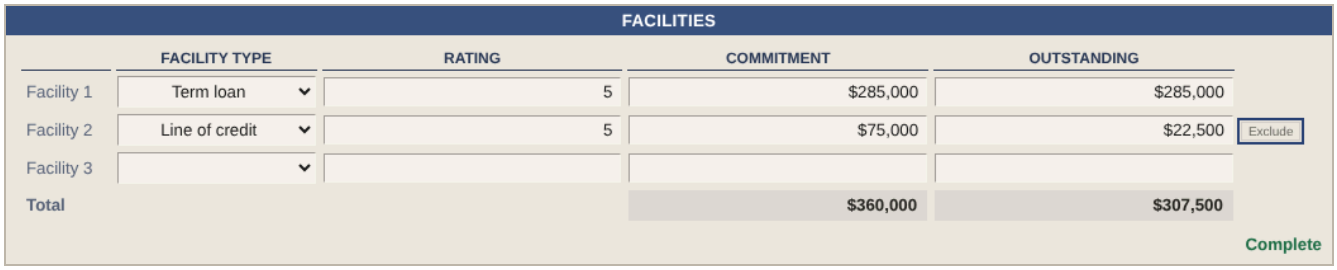

- Enter each facility on its own row: type, rating, commitment and outstanding.
- Use **Exclude** to leave a row out, and give the reason.

Expected result. An incomplete row highlights its missing cell, and the column total reads *Not calculated* until it is complete.

(i)

(ii)

H. Answer the test questions

PREPARER

- Rate each question. Open **Test steps** under a question for the steps to perform.
- Comment on every rating of Partially effective or Not effective.

Expected result. A rating of Partially effective or Not effective highlights the comment box until a comment is entered. A question that depends on another answer shows the condition under its number.

(i)

I. Complete the supporting analysis

PREPARER

- Select **Analysis**.
- Enter income sources, existing debts and the proposed monthly payment.

Expected result. Debt-to-income reads *Not calculated* until every input is entered, with each missing input listed. When complete, the ratio and its result against the limit are shown, and any zero amount is listed under Disclosures.

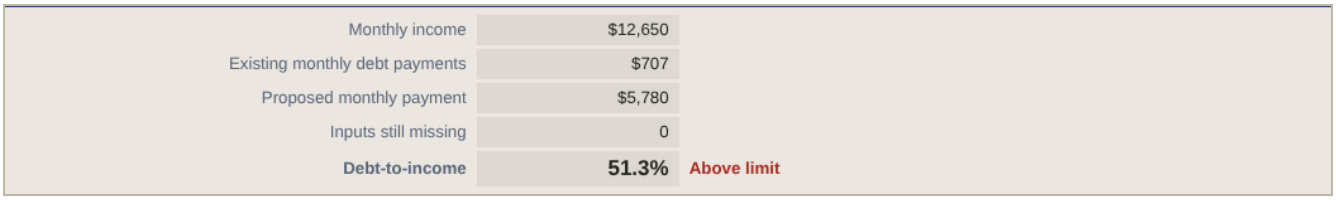

(i)

(ii)

(iii)

Monthly income	$12,650	
Existing monthly debt payments	$707	
Proposed monthly payment	$5,780	
Inputs still missing	0	
Debt-to-income	**51.3%**	Above limit

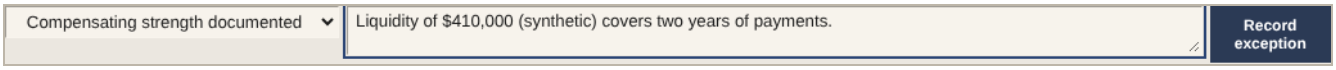

J. Record the exception

PREPARER

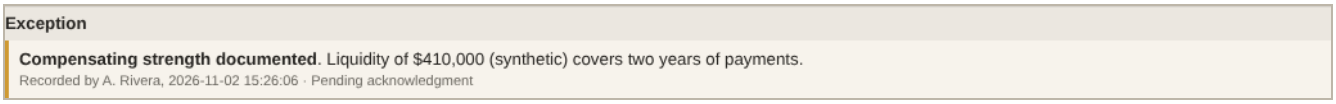

- Where the result is *Above limit*, select a reason, enter an explanation, and select **Record exception**.

Expected result. The exception is listed under the result as *Pending acknowledgment*. The calculated result does not change.

(i)

(ii)

K. Submit for review

PREPARER

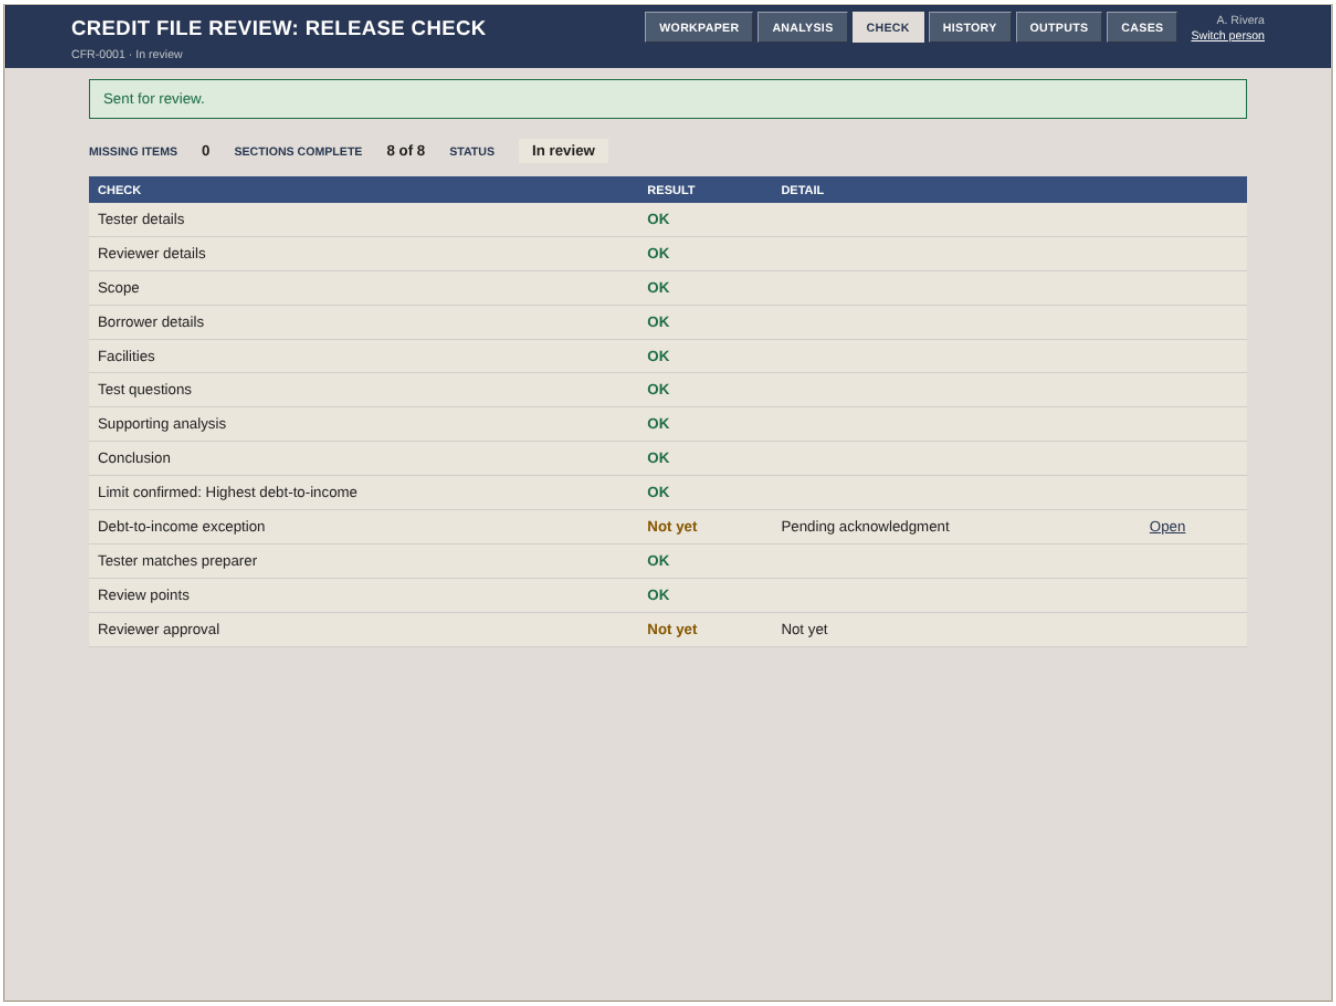

- Select **Submit for review**.
- If the release check lists missing items, select **Open** on each, complete it, and submit again.

Expected result. Status reads *In review* and the case's fields are locked for the preparer.

(i)

2 item(s) are still missing. The release check lists each one.

(ii)

L. Raise review points

REVIEWER

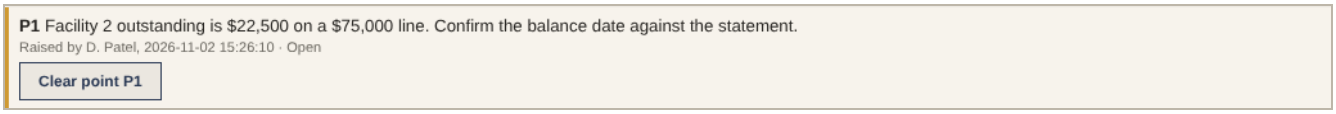

- Open the case from **For review**.
- Under the section concerned, enter the point and select **Raise point**.

Expected result. The point is listed as Open with the reviewer's name and time. The reviewer cannot change the preparer's entries.

(i)

CASE	LINE	TOOL	SUBJECT	STATUS	MISSING ITEMS	OPEN POINTS	PREPARER	REVIEWER	LAST CHANGE
CFR-0001	–	Credit file review 1.1	H••••	In review	0	0	A. Rivera	–	2026-11-02 15:26:08

(ii)

M. Acknowledge the exception

REVIEWER

- Select **Analysis**.
- Select **Acknowledge** on the exception.

Expected result. The exception reads *Acknowledged by D. Patel* with the time.

> **Note:** Approval is refused while a point is open or an exception is unacknowledged, and the message lists each one.

(i)

(ii)

N. Answer the review point

PREPARER

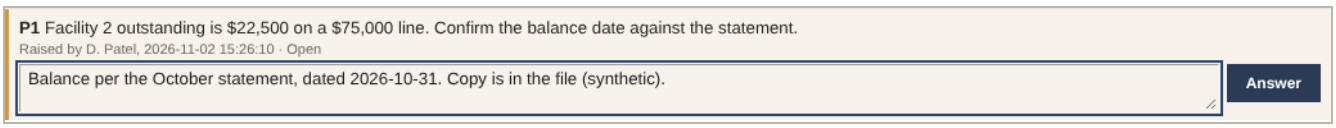

- Open the case. Cases shows the open point under Open points.
- Enter the answer under the point and select **Answer**.

Expected result. The answer is listed under the point with the preparer's name and time.

(i)

CASE	LINE	TOOL	SUBJECT	STATUS	MISSING ITEMS	OPEN POINTS	PREPARER	REVIEWER	LAST CHANGE
CFR-0001	–	Credit file review 1.1	H••••	In review	0	1 (awaiting your answer)	A. Rivera	–	2026-11-02 15:26:11

(ii)

O. Clear, approve and release

REVIEWER

- Select **Clear point**.
- Select **Approve**.
- Select **Release**.

Expected result. Status reads *Released*. Outputs lists the released files with their SHA-256 fingerprints: the data feed (JSON and CSV), the one-row answers file and the workbook.

(i)

> **P1** Facility 2 outstanding is $22,500 on a $75,000 line. Confirm the balance date against the statement.
> Raised by D. Patel, 2026-11-02 15:26:10 · Cleared by D. Patel
>
> > Balance per the October statement, dated 2026-10-31. Copy is in the file (synthetic).
> > A. Rivera, 2026-11-02 15:26:13

(ii)

FILE	SHA-256	WRITTEN
CFR-0001.answers-row.csv	`b08202f1748d670a`	2026-11-02 15:26:14
CFR-0001.feed.csv	`f8cfbb3e1a884059`	2026-11-02 15:26:14
CFR-0001.feed.json	`f187785ec17fe2b7`	2026-11-02 15:26:14
CFR-0001.xlsx	`1b3a0c249d96470b`	2026-11-02 15:26:14

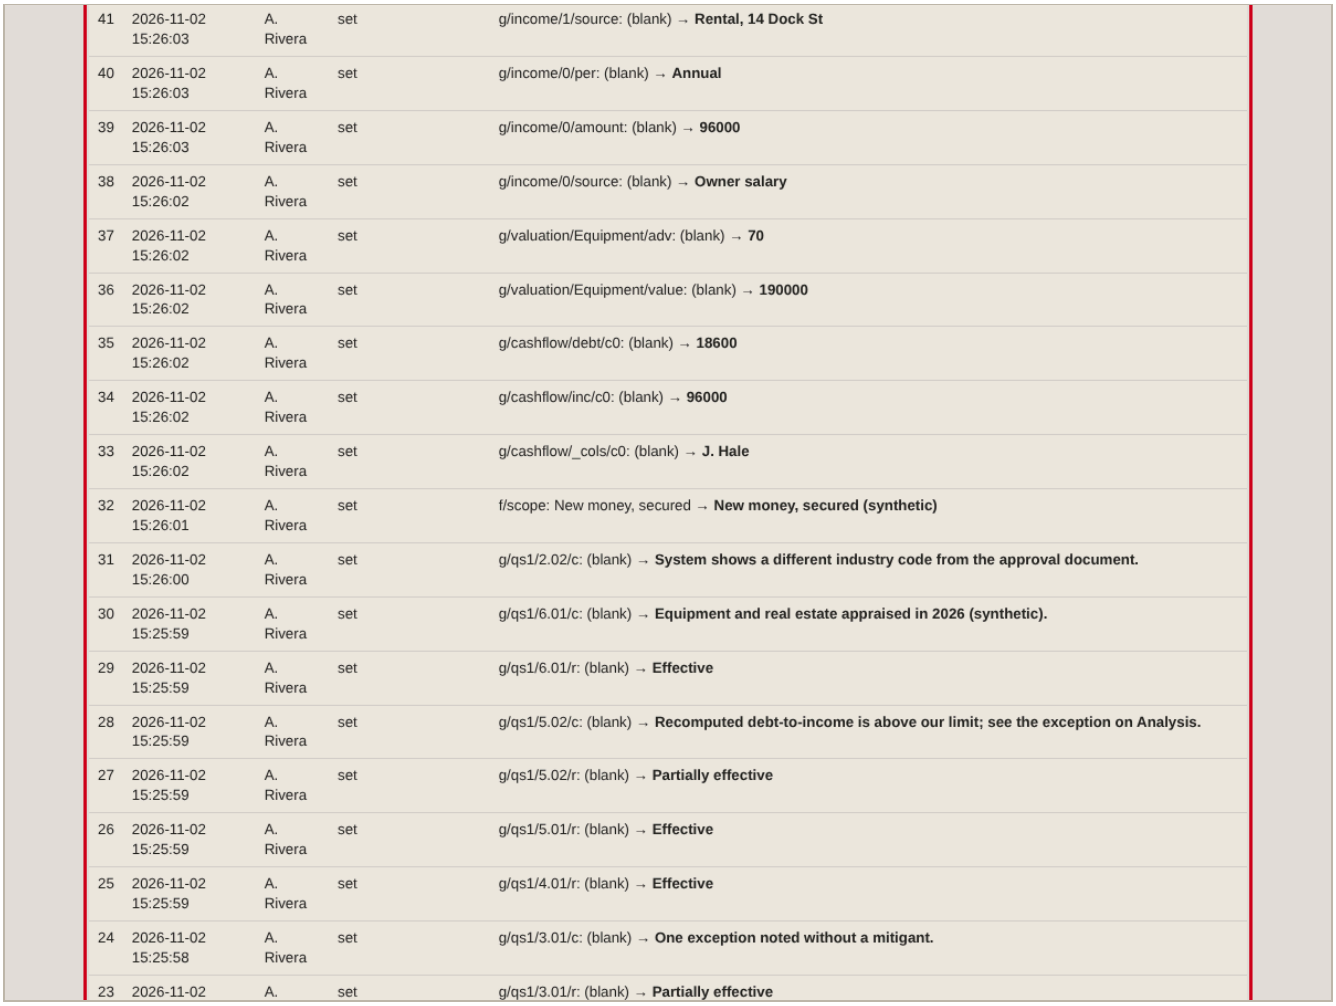

P. Review the history

ANYONE WITH ACCESS TO THE CASE

- Select **History**.

Expected result. Every entry and action is listed with who and when, newest first.

(i)

41	2026-11-02 15:26:03	A. Rivera	set	g/income/1/source: (blank) → **Rental, 14 Dock St**

30	2026-11-02 15:25:59	A. Rivera	set	g/qs1/6.01/c: (blank) → **Equipment and real estate appraised in 2026 (synthetic).**
29	2026-11-02 15:25:59	A. Rivera	set	g/qs1/6.01/r: (blank) → **Effective**
28	2026-11-02 15:25:59	A. Rivera	set	g/qs1/5.02/c: (blank) → **Recomputed debt-to-income is above our limit; see the exception on Analysis.**
27	2026-11-02 15:25:59	A. Rivera	set	g/qs1/5.02/r: (blank) → **Partially effective**
26	2026-11-02 15:25:59	A. Rivera	set	g/qs1/5.01/r: (blank) → **Effective**
25	2026-11-02 15:25:59	A. Rivera	set	g/qs1/4.01/r: (blank) → **Effective**
24	2026-11-02 15:25:58	A. Rivera	set	g/qs1/3.01/c: (blank) → **One exception noted without a mitigant.**
23	2026-11-02	A.	set	g/qs1/3.01/r: (blank) → **Partially effective**

Best practices

- Comment on every Partially effective or Not effective rating, with enough detail for a third party to follow.
- Record an exception rather than changing entries to bring a result within its limit.
- Answer review points in the case, so the answer stays with the record.
